# MAFL-009055-CD4254

**Broadband CATV Diplexer** 5 - 1000 MHz

M/A-COM Products Part Status: V1

#### **Features**

- 75 Ohm
- SMT Unit
- **RoHS Compliant**
- **Excellent Temperature Stability**
- **Excellent Repeatability**

#### **Description**

M/A-COM's MAFL-009055-CD4254 is a low cost, SMT diplex filter designed for CATV, DTV, DBS, cable modem and set top box applications. The technology used in this design is patent pending.

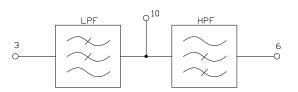

## **Pin Configuration**

| Function       | Pin Number              |
|----------------|-------------------------|
| Ground         | 1, 2, 4, 5, 7, 8, 9, 11 |
| Low Pass Port  | 3                       |
| High Pass Port | 6                       |
| Common         | 10                      |

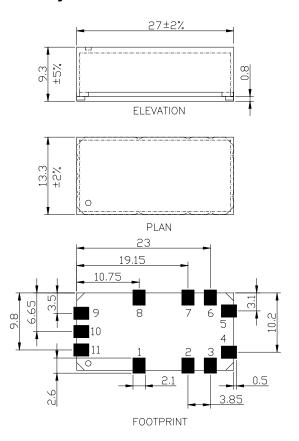

## **Ordering Information**

| Part Number        | Package             |
|--------------------|---------------------|
| MAFL-009055-CT4254 | 200 per reel        |
| MAFL-009055-CT42TB | Customer test board |

#### **Schematic**

### Case Style SM-162

Dimensions are millimeters.

Tolerance:  $.x \pm 0.1$ ,  $.xx \pm 0.05$ , except where specified.

**ADVANCED:** Data Sheets contain information regarding a product M/A-COM Technology Solutions is considering for development. Performance is based on target specifications, simulated results, and/or prototype measurements. Commitment to develop is not guaranteed. PRELIMINARY: Data Sheets contain information regarding a product M/A-COM Technology Solutions has under development. Performance is based on engineering tests. Specifications are typical. Mechanical outline has been fixed. Engineering samples and/or test data may be available. Commitment to produce in volume is not guaranteed.

| Additional<br>Specifications (MHz) | Group Delay (ns)<br>Typ. Max |    |  |  |
|------------------------------------|------------------------------|----|--|--|
| 40.5 - 42                          | 5                            | 20 |  |  |
| 54 - 55.5                          | 10                           | 20 |  |  |

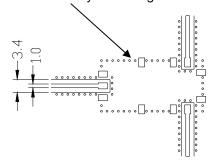

## **Absolute Maximum Ratings**

Commitment to produce in volume is not guaranteed.

| Parameter             | Absolute Maximum |
|-----------------------|------------------|
| RF Power              | 250mW            |
| DC Current            | 30mA             |
| Operating Temperature | -40°C to +85°C   |
| Storage Temperature   | -40°C to +85°C   |

## **Recommended PCB Configuration**

Note: Pad size dimensions match size of those specified in SM-162 case style drawing.

Note: Substrate is 1.6mm thick FR-4. A ground plane is directly under diplexer. This is connected to the ground plane on the bottom of the PCB. This forms a 75 Ohm co-planar wave guide for input and output transmission lines.

ADVANCED: Data Sheets contain information regarding a product M/A-COM Technology Solutions is considering for development. Performance is based on target specifications, simulated results, and/or prototype measurements. Commitment to develop is not guaranteed. PRELIMINARY: Data Sheets contain information regarding a product M/A-COM Technology Solutions has under development. Performance is based on engineering tests. Specifications are

typical. Mechanical outline has been fixed. Engineering samples and/or test data may be available.
